Higher Nationals - Summative Assignment Feedback Form

BTEC

Student Name/ID	NANG HSU YATI		
Unit Title	Unit 20: Advanced Programming		
Assignment Number	Assignment 1 of 1	**Assessor**	Mrs. A Mon Oo
Submission Date	18th September 2023	**Date Received 1st submission**	18th September 2023
Re-submission Date		**Date Received 2nd submission**	

Assessor Feedback:

In Assignment:

The learner is very smart and enthusiast in programming. The learner can explain very well about OOP features, different types of design patterns concepts and usage of it. Furthermore, the learner can make the additional evaluation to get higher grade points. The learner meets all the Merit points and Distinction points. Therefore, the learner gets Distinction points. Well done.

Student Name/ID	NANG HSU YATI /		
Unit Title	Unit 14: Business Intelligent		
Assignment Number	Assignment 1 of 1	**Assessor**	Mr. Myo Myint Oo
Submission Date	15/09/2023	**Date Received 1st submission**	15/09/2023
Re-submission Date		**Date Received 2nd submission**	

Assessor Feedback:

Task 1 Feedback:

In the assignment task 1, you have prepared your Presentation file. You have conceptually described the precise definition of Business Process with example of business process, the concise definition of supporting process with example. You have also described about the supporting process at three levels of organization. You have explained about the precise definition of BI, the explanation of BI tools and techniques. You have discussed about the un structured and semi-structured data. You have also described about the key characteristics of BI functionality. Moreover, you have mentioned about the advantages and disadvantages of business application software at business decision making. Finally, you have described about the various information systems and technologies. Your presentation is good and factual.

Task 2 Feedback:

In the assignment task 2, you have well prepared your BI report file. In this BI report, you have created and prepared the Sales and Revenue report according to assignment scenarios. In this report, you have prepared the four brand such as Apple, GoPro, Samsung, Sony. You have used "slicer, Card, chart and Map" at sales and revenues report. Your BI report is clear in explanation with relevant visualization.

Task 3 Feedback:

In the assignment task 3, you have briefly discussed about BI definition, the benefit of BI tools that can contribute to effective decision-making and the legal issues for secure exploitation of business intelligence tools. You have explained the BI Report Design of the Task 2. You have also evaluated the organizations that is used BI to extend their target and more competed at the market. You have mentioned the organization such as Amazon, Netflix, Delta Air Lines and Apple. You have discussed about the businesses that utilize BI technologies to expand the target audience and their ability to compete in the market. You have described your task 3 report as academic paper style. It is very convenient explanation.

You have completed the Task 1, Task 2 and Task 3 of your assignment task. You have covered the **Distinction point**.

Your plagiarism rate is about **0% of report and 0% of presentation**.

You have described the references of your report just by using Harvad referencing styles.

Student Name/ID	Nang Hsu Yati		
Unit Title	Unit 43: Internet of Things		
Assignment Number	Assignment 1	Assessor	MR. HEIN MOE AUNG
Submission Date	26st Sep 2023	Date Received 1st submission	27rd Sep 2023
Re-submission Date		Date Received 2nd submission	

Assessor Feedback:

In Assignment 1,

This learner could explore various forms of IoT functionality, and review IoT architecture and dependencies. Then, this learner could investigate and determine IoT dependencies for smart farm IoT, and develop IoT application align with employment and running end user feedbacks. Additionally, this learner could evaluate end user feedbacks for developed IoT application. Moreover, this learner could evaluate and review in analysis about IoT aspects along with IoT dependencies, select and pally appropriate tools, architecture, hardware in both outlining and developing IoT smart farm. Additionally, this learner could reconcile and evaluate end user feedbacks for chosen IoT techniques Finally, this learner could evaluate specific forms of IoT architecture, justify usage when developing, make trial and error development for IoT design and application regarding with feedbacks and critique the overall success with application theme.
